

**eruption**

when something  
bursts through a  
surface

**depths**

in the deepest  
parts

**gradually**

happens very  
slowly over time

**revealed**

it was hidden but  
can now be seen

**contract**

to get smaller  
by shrinking

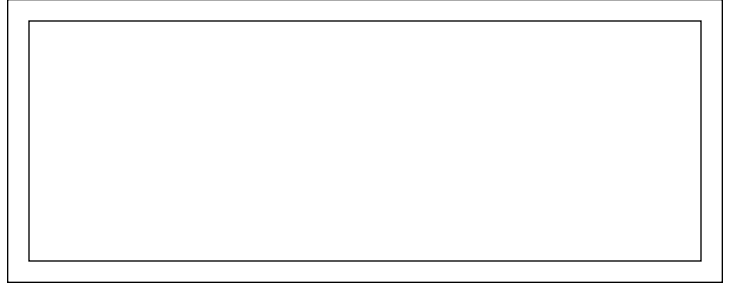

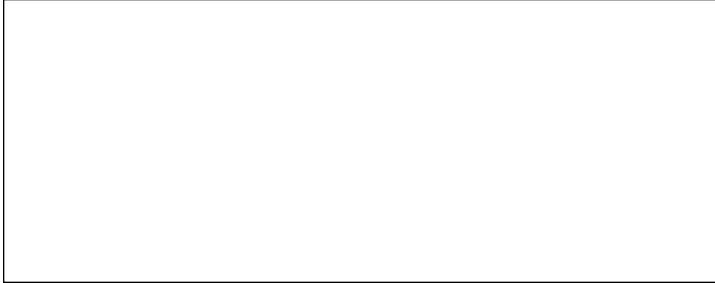

**constant**

it happens  
without stopping

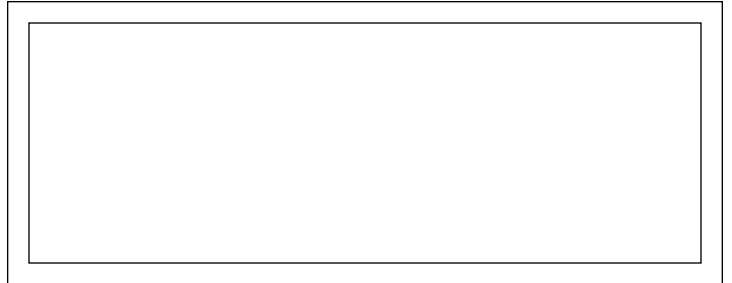

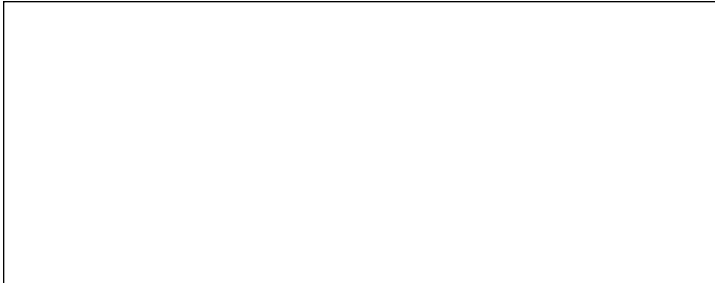

**immediate**

something that  
happens right away
